NORA FACYPORT · 05

The bus that knows *who's on board.*

Face-verified boarding at the door and a live camera in the cabin. No card, no phone, no queue.

<1 s	**GPS**	**500**	**Live**
AI verifies each student	and time on every scan	scans held offline	cabin camera feed
AI			

HOW FACYPORT WORKS · 06

From the bus door to *everyone who needs to know.*

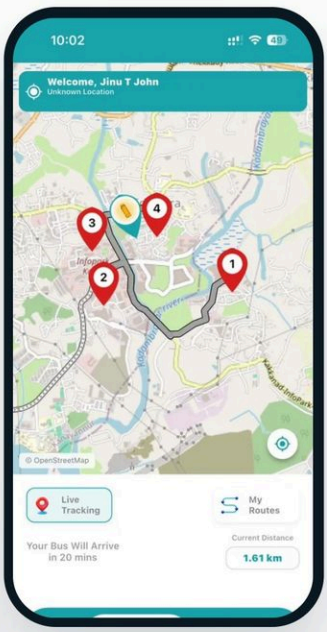

01
Step on
The tablet at the door sees the student. Liveness blocks photos.

02
Verified
Matched in under a second. One face, one identity.

03
Stamped
Time and GPS on every scan. Works offline.

04
Seen live
Cabin streams to the desk. Parents get the alert.

TRANSPORT DESK · NORA TRANSIT

Sees the cabin, live.

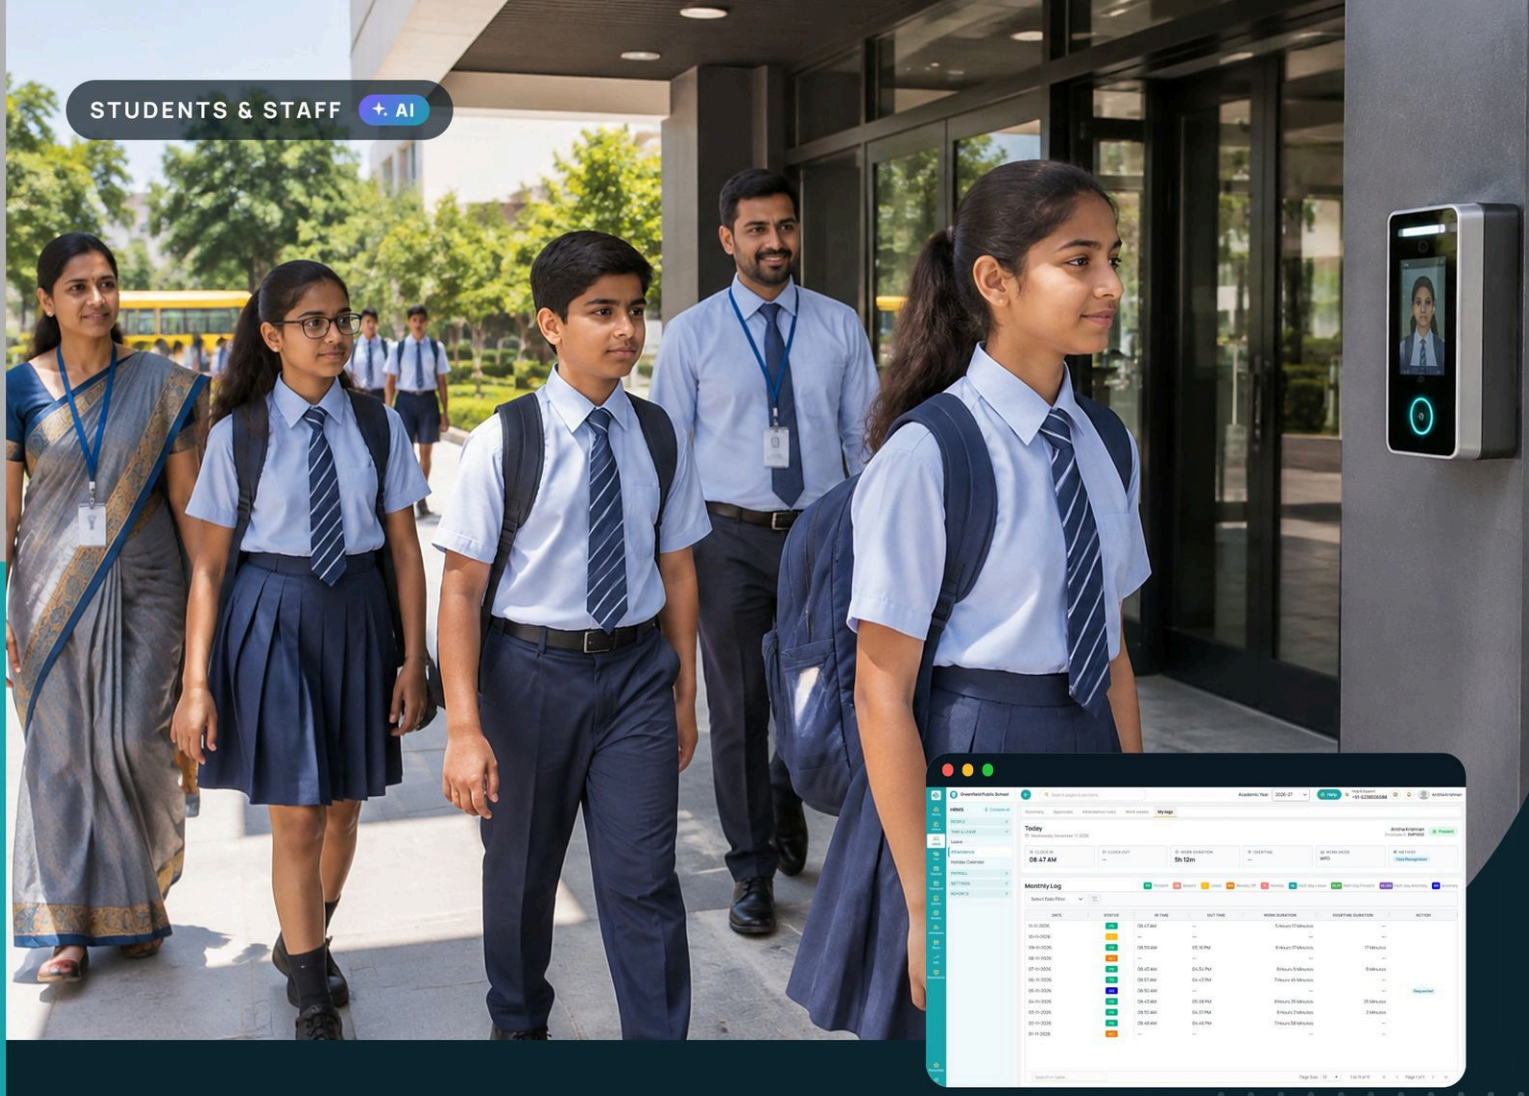

The in-cabin camera streams in real time, next to the route map and the verified roster.

PARENTS · NORA CONNECT

Gets the alert.

Verified boarding and drop-off, the moment it happens. Attendance, not video, by design.

ATTENDANCE + GPS	LIVE STREAM, 2 H / DAY	RECOMMENDED SIM PLAN
≈ 50 MB / month	≈ 15 GB / month	20 GB / vehicle

NORA FACY · 07 AI

Roll call, *retired.*

Face-recognition attendance for every student and every staff member, at the gate and in the classroom. Contactless and proxy-proof.

For students

Gate and classroom attendance in seconds
Late, absent and arrival alerts to parents
Access control for labs, library and hostel

For staff

Check-in and check-out, no buddy punching
Feeds NORA HRMS and payroll directly
Many devices, many campuses, one dashboard

TRUST · 08
